## Cross Over Cue Cards

### Procedure

1. Print **this file in color one time**. If a lesson requires multiple sets of cue cards they have been included in this file that many times. For example, if the lesson needs 4 sets of cue cards you will find 4 sets of them on your printer without needing to find that set and printing it 4 times.
2. Cut cue card sheets to separate and laminate. **Cue cards do not have to be enlarged.**
3. Match cue cards to your lessons. At the bottom of each cue card is a code that matches the class level, lesson, and activity. For example, Cross 3.1 is a cue card that will match Cross Over Lesson 3, Leisure Family.

**NOTE:** Your pronoun chart is the last page of this file. Be sure not to cut it in half along with your cue cards.
